OTISFIELD

In 1734, one Shubael Gorham of Barnstable, Mass., representing that town in the state legislature (called the General Court of Mass.), petitioned that body for a grant of land to Capt. John Gorham and his Company, for meritorious services rendered and hardships endured in the unsuccessful expedition against Canada in the French and Indian War of 1690.

This was the beginning of Otisfield, for the petition was granted on Jan. 13, 1736 and the boundaries of a township laid out.

The following is the wording of the grant:

In the Mass. House of Representatives, Jan. 13, 1736, it was ordered that a township of land containing twenty-six thousand, nine hundred and ten acres, excepting three thousand eight hundred and seventy acres previously granted to other parties, leaving twenty three thousand and forty acres, which was confirmed to the officers and soldiers in the company under the command of Capt. John Gorham, deceased, in the Canada Expedition of 1690, and to the heirs, legal representatives and descendants of such of them as are since deceased, their heirs and assigns respectively forever, they performing the conditions of the grant to all intents and purposes, and does not interfere with any other or former grant.

Sent up for concurrence, J. Quincy, Speaker.

In Council, Jan. 13, 1736, Read and Concurred.

Simon Frost Deputy Secretary.

Feb. 1st, 1736, Consented to, J. Belcher.

* * * * *

On running the lines between Mass. and New Hampshire, it was found that all but eight shares fell within the Government of New Hampshire and was consequently lost to the grantees.

Apparently nothing was done about it for thirty-five years, when another effort to obtain a township was made by a petition of the Hon. James Otis, Esq. and Mr. Nathaniel Gorham in behalf of the former grantees, which petition was granted and a township of seven miles square was granted to them June 15th, 1771.

Otisfield is the most northeasterly town in Cumberland

65 from 11

County and is thirty-six miles N.N.W. of Portland. Thompson Pond separates it from Poland in Androscoggin County and from the southern part of the town of Oxford in Oxford County. Norway in the same county bounds it on the north. On the west is Harrison in Cumberland County and Casco and Naples bound it on the south and southwest. Crooked River forms the boundary line for the entire length of the town on the western side. It contains four ponds, Little (formerly Farwell), Moose, Saturday, and Pleasant (formerly Parker), beginning at the north of the town and increasing in size southward, the last containing two and one-quarter square miles of surface. Thompson Pond which washes the eastern side of the town has an area of eight square miles. The town is hilly, the highest being Scribner Hill, 880 feet, Bell Hill, 858 feet, Nuttings Hill, 780 feet, Lovells Hill, 780 feet, and Porcupine Hill, 850 feet. The soil is rocky but produces good crops. Corn and potatoes are the principal crops. There have been many sawmills and a few gristmills in town in the past but there are no permanent mills there now. There was formerly a pant shop and shoeshop at Spurrs Corner, a tannery at East Otisfield, and an apple canning shop and cider mill at East Otisfield, also stores at East Otisfield, South Otisfield, Hancockville, Spurrs Corner, and Bolsters Mills. A stage line formerly ran through the town from Oxford Station on the Grand Trunk R.R. to Naples.

The packing industry was represented in town during the period of 1890 to 1898 by the Snowflake Packing Co. (H. C. Baxter & Bro.) of Brunswick, who packed corn in a shop built by local men, on the lower end of the Scribner Hill Road, known locally as "Cherryville" and the business was carried on later by Ephriam B. Jillson and his son, George C. Jillson.

June 1st, 1774 at a meeting of the Proprietors at the house of Capt. Daniel Jones, Innholder, in Boston, George Peirce undertook to build a saw and gristmill. The sawmill to be finished by the first day of November, 1774, and the gristmill the first day of November, 1775, in consideration for which he demanded thirty pounds in hand, thirty pounds at the time the sawmill was finished and twenty pounds when the gristmill is completed, and the use of the Proprietors' boat for ten years, he to be under obligation to keep the said mills and boat in repair for ten years.

George Peirce was sent by the proprietors to lay out a township seven miles square, somewhere east of the Saco River and adjoining an organized township. Whether any of the proprietors came with him to help in selecting a site for the township is not recorded but it is probable that Capt. Jonathan

Brackett and David Purinton, who were surveyors and assisted Mr. Peirce in laying out the town, were with him.

The northwesterly boundary of Raymondtown was uncertain, evidently Mr. Peirce guessed at it and laid out the first division of sixty-four lots parallel to it as near as he knew at that time and adjoining the east line of Bridgetown (now Bridgton). That probably accounts for the diamond shape of the lots and is the reason for the township not being laid out square as was directed. Afterwards, on Aug. 16, 1774, James Prescott and Stephen Gorham were appointed a committee to "Compel the proprietors of Raymondtown to ascertain their boundaries with us." The first division of lots was laid out in the summer of 1773 and upon the boundary of Raymond being found, there was a strip of land between the first division and Raymond which was 310 rods wide at the westerly end and 238 rods wide at the easterly end. This was divided into lots as well as could be done, but making them differently shaped than the other town lots. There was then a piece of land left west of the first division of lots and bounded S.E. by Raymondtown, S.W. by Flintstown (now Baldwin), and N.W. by Bridgetown and containing parts of Long Pond, Brandy Pond, and Muddy River Pond. This was divided into lots of various shapes and sizes and distinguished from the other town lots by X being added after the number of the lot. When the fourth and fifth divisions were laid out they were squared up so the lots had right angled corners and the triangular piece between them and the lots previously laid out was divided into whole lots and gores.

Sept. 6, 1785, the Proprietors of Otisfield met at Marstons Tavern, Boston, and voted that the committee be empowered to give to David Ray and his heirs a good and sufficient deed of that piece of land lying between his mill lot, Saturday Pond, and lot 150, provided he shall erect a good sawmill and finish the same for sawing boards within a year from this date.

July 2, 1788, the committee appointed by the Proprietors of Otisfield, made and executed a deed to David Ray of a lot of land in said town, adjoining lots 113 and 96, in consideration of his having built a gristmill in said town, also another piece of land containing thirteen acres and twenty poles, lying between his mill lot and Saturday Pond and lot 114, in consideration of his having built a sawmill in said town.

Oct. 16, 1776, at a meeting of the Proprietors it was "Voted the name of the township be Otis Field." The above is all that appears on the record regarding the naming of the township.

The reason why the township was called Otisfield was undoubtedly from the fact that James Otis owned more rights than any of the other proprietors and that his brother, Samuel A. Otis was the proprietors' clerk, consequently it was in honor of them that the town was called Otis and Field added to it by general consent. There has been a tradition that the town was named for Harrison Gray Otis, the son of Samuel, but as he was a young man at that time and owned no lots in the township it is very doubtful if he had anything to do with the naming of the town.

Jan. 2, 1795, the Proprietors voted to give David Ray fifty pounds for "Procuring and raising a good and sufficient frame, 45 feet by 35 feet with posts 22 feet in height and underpin the same and that ye work be done by ye first day of Sept. next." This building for a Meeting House, to be set on lot 93 on an acre of land which David Ray donated for that purpose. George Peirce boarded, clapboarded and shingled the building also putting in the windows and doors and was given two corner pews for his pay, also some pews in the gallery.

William G. Cobb was the first male child born in Otisfield being born Oct. 14, 1779 and according to Grinfill B. Holden born about a mile above Peirces Falls (now Edes Falls) on the east side of Crooked River. Another version gives his place of birth as being on the side of Bell Hill.

There is a tradition that a lot of land was given to Levi Patch, born Oct. 21, 1782, as being the first male child born in town but there is nothing in any record to substantiate the story. The lots were all divided among the original proprietors and all accounted for and none designated for the first born male child. Also there is no deed on record of any lot to Levi Patch from any of the proprietors.

The first plantation meeting was held in the house of Deacon Stephen Phinney, May 15, 1787, and chose:

David Ray	<i>Moderator</i>
Joseph Wight, Jr.	<i>Clerk</i>
David Ray, Benj. Patch and Noah Reed	<i>Assessors</i>
Jonathan Moors	<i>Collector</i>
All sworn before George Peirce, Esq.	

The first three roads were accepted by vote of the town, Sept. 18, 1797.

Jan. 12, 1795, the inhabitants met at the house of David

Kneeland and cast ten votes for the Hon. Peleg Wadsworth to represent the second Eastern District in the Congress of the United States.

May 10, 1797; There were 32 votes for the separation of the District of Maine from the Commonwealth of Mass.

Aug. 23, 1797; Voted to settle the Rev. Thomas Roby as the first plantation minister.

It was incorporated the 115th town, Feb. 19, 1798.

Section 2. This act shall take effect from and after its approval by the governor.

AN ACT TO ANNEX CERTAIN LANDS TO THE
TOWN OF OTISFIELD.

Approved Mar. 20, 1933.

Be it enacted by the people of the State of Maine, as follows;
Certain lands annexed to the town of Otisfield; From and after the passage of this act, the parcel of land with the inhabitants thereon, viz: a part of a gore lot situated near the southeasterly part of Otisfield, bounded on the north by lot numbered 163 and lot numbered 4 in Phillips Gore; on the east by Thompson Pond; on the south by the Forty Seven Acre Lot set off from Poland to Otisfield in 1858; and on the west by a parcel of land set off from Poland to Otisfield by the same act of 1858, be and is hereby annexed to the town of Otisfield.

Phillips Gore owes its origin to the fact that it was dropped out of a grant made to Alexander Shepherd Jr. between the original grant and act of incorporation of what was originally the town of Hebron, now Hebron and Oxford. After the grant was made to Shepherd, he sold to James Prescott and Oliver Prescott of Boston and to George Peirce of Otisfield, for the sum of sixty pounds this tract of land, deed dated Sept. 23, 1777.

As this was two years before the act of confirmation, it may be inferred that the purchasers supposed they were getting a valid title and that Shepherd believed he was selling what he had good right to sell and believed that his title would be confirmed to him by the legislature. Esquire Peirce as agent for his partners demanded payment of the settlers on the gore for the land on which they lived. The settlers refused to pay and a test case was brought against Ezekiel Rich but as far as is known was not successful.

Oct. 10, 1794, the Land Commissioners of Mass. sold to the Hon. Samuel Phillips of Andover, Mass., "A certain tract of land lying in the county of Cumberland containing about three thousand and nineteen acres"

The consideration paid by Mr. Phillips was one hundred and fifty one pounds.

This deed by some error did not include the whole of the gore and Judge Phillips in 1798 took another deed from the Land Commissioners which included 6,185 acres of land including water.

The following deed is also on record in Portland.
Alexander Shepard Jr. to Samuel Phillips, Apr. 20, 1782 for 125 pounds; beginning at a stake and stones in the west line of Shepardsfield 20 Gunters chains N.W. in said line from Thompson Pond, thence on a line running N.E. parallel to Thompson Pond and 20 Gunters chains distant as the S.E. boundary, thence beginning at the stake and stones first mentioned, running north 25° west, 4 miles, thence north 69° east until a line running south 14° east shall intersect the line running parallel to Thompson Pond, so as to include 2000 acres as aforesaid.

EXPLANATIONS

1. The fact that a birth, marriage, or death is recorded in Otisfield does not prove that it occurred in this town; when places other than Otisfield and Maine are named in the original records, they are given in the printed copy.

2. In all items from town records the original spelling is followed, and no attempt is made to correct errors appearing in the records.

3. The various spellings of a name should be examined, as items about the same family or individual may be found under different spellings.

4. A baptism is not printed if it occurs within one year after the record date or birth of a child of the same name and parents, or if it is clear that the child baptized is identical with the child of the birth record; but variations found in the baptismal record are added to the birth record.

5. The birth of a married woman is recorded under her maiden name if it is known. But if the maiden name cannot be determined, the entry appears under the husband's name, with a dash enclosed in brackets, i. e., [——], to signify that the maiden name is unknown. If it is not known whether the surname is that of a married or unmarried woman, ?m. is placed in brackets after the Christian name.

6. Marriages and intentions of marriage are printed under the names of both parties. When both the marriage and intention of marriage are recorded, only the marriage record is printed; and where a marriage appears without the intention being recorded, it is designated with an asterisk.

7. Additional information which does not appear in the original text of an item, i. e., any explanation, query, inference or difference shown in other entries of the record is bracketed.

Parentheses are used to show variations in the spelling of a name in the same entry, to indicate the maiden name of a wife, to enclose an imperfect portion of the original text, and to separate clauses in the original text.
